The Occupational Health Clinics for Ontario Workers Inc. (OHCOW) Sudbury has drafted a general Slip, Trip and Fall Policy that is available to all interested employers and employees. The policy was created in partnership with several community partners.

The need to identify, remove and control slip, trip and fall hazards is crucial for the health and safety of all employers, workers, and every day people. The policy has a very detailed procedure section to help guide employers, supervisors and workers with slip, trip and fall hazards. There is a checklist which will help Joint Health & Safety Committees and Health & Safety Representatives identify hazards in their workplace.

The policy can be easily adapted to any workplace in order to ensure all site specific hazards are taken into consideration.

If you are interested in obtaining a copy of the policy or additional information, please contact the OHCOW Sudbury Clinic.
