OHIP card not required

Other resources

Urgent Care Centres

You can receive treatment for most injuries and illnesses (non life threatening) such as infections, earaches, eye injuries, sprains, broken bones, cuts, fevers, minor burns and nose and throat complaints through emergency-trained doctors and other health care professionals at an Urgent Care Centre. There are also often laboratory and xray services available.

This is covered by OHIP. You do need your OHIP card although care is being provided without an OHIP card during the Covid pandemic. You do not need a referral. Many post wait time to be seen on the website.

Check for one close to you. Examples are listed below

Paris Ontario: <https://www.bchsys.org/en/care-services/willett-urgent-care-centre.aspx>

Fort Erie Niagara and Port Colborne: <https://www.niagarahealth.on.ca/site/waiting-times> (scroll down)

Hamilton: <https://www.hamiltonhealthsciences.ca/about-us/our-organization/our-locations/west-end-clinic-urgent-care-centre/>

All other areas:

Call Telehealth Ontario: **Phone: 1 866 797 0000**

Wait for a person to come on the line and ask for a translator if needed
