

Work Safely

Work Clothing

During work you may be exposed to pesticide residues from crops or equipment

- Wear work clothing that covers as much of your skin as possible, to protect from contamination.
- Your work clothes may have pesticide residues on them, wash your work clothes as soon as possible, and wear clean work clothes each day.

When washing work clothing:

- Use hot water and soap
- If possible, hang your clothes outside to dry, the sun can help break down any pesticides on your clothing.
